

Investment Perspective

FROM BROTHERS FOUNDATION FUNDS

APRIL 2016

MARKETS AND THE ECONOMY

Upbeat U.S. economic readings over the past month helped change the moods in the markets and erase the S&P 500 Index's losses for the year; the index rose 6.8 percent in March and is up 1.3 percent since the beginning of the year. The Federal Reserve kept its benchmark interest rates unchanged and indicated a lower projected path for future rate increases due to soft global growth and financial market volatility. While there were widespread job gains across multiple sectors, the U.S. unemployment rate ticked up to 5 percent in March from 4.9 percent in February, as more Americans joined the labor force. U.S. manufacturing activity expanded in March. The bond market, as measured by the Barclays Capital Government/Credit Index, increased 1.2 percent in March, up 3.5 percent during the first quarter.

For the second time in three months, the European Central Bank implemented additional monetary stimulus to bolster weakening growth and inflation. Led by Germany, France, and Ireland, industrial output in the Eurozone rose by 2.1 percent in January over the prior month. Unemployment in the U.K. in January was 5.1 percent, down from 5.7 percent a year earlier; wages rose 2.1 percent over the same period. China factory output rose in March from February. China reduced the tax burden on companies in an effort to hasten the conversion toward a consumption-based economy. The unemployment rate in Japan increased to 3.3 percent in February from 3.2 percent in January. International equities, as measured by the MSCI EAFE Index, rose 6.5 percent in March, down 3 percent since the beginning of the year.

Most respondents indicated satisfaction with BFFI services.

CLIENT SATISFACTION SURVEY RESULTS

Late last year, Brethren Foundation Funds commissioned the Nonprofit Risk Management Center of Leesburg, Va., to conduct a satisfaction survey of all BFFI clients. Here is a summary of the results —

- I am satisfied with the asset management services (91.6 percent agree or somewhat agree).
- BFFI cares about my institution and treats us as a valued client (93.0 percent).
- My transactions are handled in a timely fashion (87.1 percent).
- My transactions are handled accurately with no errors (87.3 percent).
- I am able to reach the client service team when I need assistance (91.6 percent).
- The client service team is friendly and knowledgeable (91.6 percent).
- I am confident that the client service team can answer my questions and resolve my issues (91.6 percent).

In the “relatively high” number of responses (more than 41 percent), a few clients identified areas of concern or opportunities for improvement, including lack of in-house investment advice, using the Web portal, fees, and communication with clients. Most respondents indicated satisfaction with BFFI services.

Nearly 80 percent of the respondents indicated that the monthly newsletter, *Investment Perspective* (79.4 percent), and the annual disclosure document, the *Information Statement* (78.3 percent), are valuable resources and that the Web portal is a useful tool (76.1 percent), although the percentage of those who use these resources is lower.

The responses revealed opportunities for improvement, especially in those areas where less than 90 percent of the respondents were satisfied. BFFI will use this input to guide its efforts to offer excellent client service, with the expectation that the next survey will yield stronger participation and higher satisfaction.

Please contact Steve Mason, director of Brethren Foundation, if you have questions or comments.

Fund Performance Report

for the period ending March 31, 2016

All periods longer than one year are annualized.

Funds (Net of Investment Fees) Benchmarks (Gross)	Current Month	Three Months	Year-to-Date	Three Years	Five Years	Ten Years
